

How to find a book on your child's just right reading level.

Directions: Go to the following website: <http://www.scholastic.com/bookwizard>

- Underneath **book wizard**, click on **reading level**. Then click on **Guided Reading**. Set the just right reading level underneath. You can go down or up a level to get a better range. For example, if I am a level S, I would click R in the first box and S in the second box. If you plan on reading this book together then you can go up one level, so click on T.
- Click **Find**
- Go underneath **BROWSE BY**, click **ALL BOOKS**.
- Underneath **Interest level**, click on your child's grade level.
- Underneath **Reading level**, click on **Guided Reading**.
- **Underneath theme/subject**, click the type of subject you are interested in.
- **Underneath genre**, click on any genre that you are interested in. Remember to get a good range of genres
- **Underneath series**, click on any series that you are interested that are at the right level.
- **Language**- click English

The books presented should automatically fit all the criteria you typed in for your child.
